# Coomaile Air Maintenance

Coomaile Air Maintenance offers a wide range of aircraft maintenance services for private and charter companies – servicing both piston and turbine machines. Providing quality, CASA approved aircraft maintenance to Darwin and the Northern Territory.

Coomaile service aircraft ranging from Cessna 172's to Beech 1900's, and have a wide range of clients in the aviation industry.

Coomaile have a large hanger and storage facility, the latest in advanced technology and a workshop with a team of enthusiastic, qualified engineers ready to look after your maintenance, modification or repair needs. Coomaile make a commitment to our clients that we will be on hand 7 days a week if you need us. Getting your plane back in the air, is our top priority.

ATTENTION TO DETAIL AND COMMITMENT  
TO PROVIDING THE **BEST**  
MAINTENANCE SUPPORT FOR  
OUR CLIENTS DAY IN DAY OUT...

OF COURSE WE ARE PROUD,  
WE ARE **TERRITORY** PROUD.

**TERRITORY

Australia's Northern Territory

## Services

Coomaile Air Maintenance offers a wide range of services in a fully equipped workshop, for both singles and twin, up to 5700kg MTOW. The company specialises in:

- Piston and Turbine powered aircraft
- Refurbishment
- Modification
- Engine Maintenance
- Sheetmetal
- Remote area work
- Spares.

At Coomaile we focus our attention on quality and customer service. Our trained technicians work together with customers to solve not only the routine problems but the difficult and unusual as well.

For the convenience of our clients, a "lift home" or an aircraft transfer from Darwin can be organised in and around your maintenance schedule.

We share your enthusiasm for aircraft and flying. With the many years experience of our staff, to the aviation sector, we pride ourselves on giving our customers what they need when they need it.
